

## Guest Speaker Last Meeting

**Tyler Schuster**, Asst Dir. Of Development, Davis College of Ag. Sci. & Nat. Res., Scholarship Program. Tyler brought 3 students who were scholarship recipients: **Brook Reyes**, Sr. Ag Communication; **Madylyn Howell**, Jr., Ag Com.; and **Lance Nicholas**, Jr. Ag Educ. Teacher major. They introduced themselves and told us how much the scholarships meant...

**Tyler** told us that the **J. Raymond Boyd** scholarship trust currently has \$541,652. **Ray Boyd** was a former Kiwanian who had oil royalties that he gave to our club under the stipulation that we transfer the royalties yearly to the Ag scholarship program at Tech. Over the years, the funds were invested by the Tech program, resulting in the current balance.

**Tyler** said \$261,843 has been dispersed as scholarships to 270 students over the years. 37 students received scholarships totaling \$28,000 this year! That's only \$757 per student, though **Tyler** said the amounts varied per student. The **J. Raymond Boyd Scholarship Program** is one of the largest the Ag College has.

During a meeting with **Tyler** and 2 other members of her staff, we asked if the amount of each scholarship could be greater: \$1-2,000, so that it'd have an even greater effect on the student's budget. **Wayne** told them he received \$500 scholarship in 1974 when he was in the Ag college & inflation would make it worth \$2,000+ today!

John Paul Batrice's

Bits & Pieces

**Jeannie** loves to cook! So yesterday she wanted to make an angel food cake for **Mike**. The recipe said to beat 12 eggs separately. Her neighbors were nice enough to loan her extra bowls.

**Tim** wanted fruit salad for supper. The recipe said: 'Serve without dressing' So, **Delores** didn't dress. What a surprise when **Tim** brought a friend home for supper!

**Cindy** thought it was a good day to cook rice. The recipe said: 'Wash thoroughly before steaming the rice.' It seemed kind of silly but **Cindy** took a bath anyway. She said she didn't think it improved the rice any at all!

**Lequice's** niece **Angie** had too much to drink one night. How much? I-lost-my-glass-eye too much! So, she called the Funky Door. **Angie** told the manager: "I drank so much wine there last night; I lost my glass eye! Did anyone find it?" After a pause, the manager asked: "What color is it?"

"I just taught my grandson about taxes by eating 38% of his ice cream."
